

REMARKS

Applicant notes and appreciates the indication that claims 1-7 have been allowed. In reviewing the Notice of Allowance and the allowed claims, it is noted that the claims contain certain grammatical errors or lack antecedent basis. Therefore, this Amendment After Allowance is being submitted to formally correct these errors in the claims.

In particular, claim 4 is being amended to add "and each" after "conductive ablation member" which was contained in claim 4 prior to the last amendment mailed April 8, 2004 and was only inadvertently omitted from claim 4 in the last amendment. In addition, claims 1 and 7 have been amended to correct clear misspellings. Further, dependent claims 2, 3, 5 and 6, which depend from respective independent claims 1 or 4, have been amended to change "electrodes" to "conductive ablation members" because "conductive ablation members" have sufficient antecedent basis relative to claims 1 and 4 while "electrodes" do not.

In the Notice of Allowance, Applicant respectfully believed that the Examiner's Statement of Reasons for Allowance correctly understood these claims despite these obvious errors. Thus, this Amendment After Allowance is respectfully believed to correct merely formal matters and its entry is respectfully requested.

Respectfully submitted,
